Chat with international students at NAIST

To find the right laboratory which your research interest matches

Nara Institute of Science  
Technology,  
Japan

◎STEP1

< Online >

**Presentation Day**

October

All participants give a presentation on their recent research. NAIST Professors will listen and evaluate them.

Onsite/Online  
Hybrid program

◎STEP2

< Onsite >

**Internship at 3 laboratories**

**at NAIST**

November

◎STEP2

< Online >

**Contacting**

**NAIST Professors online**

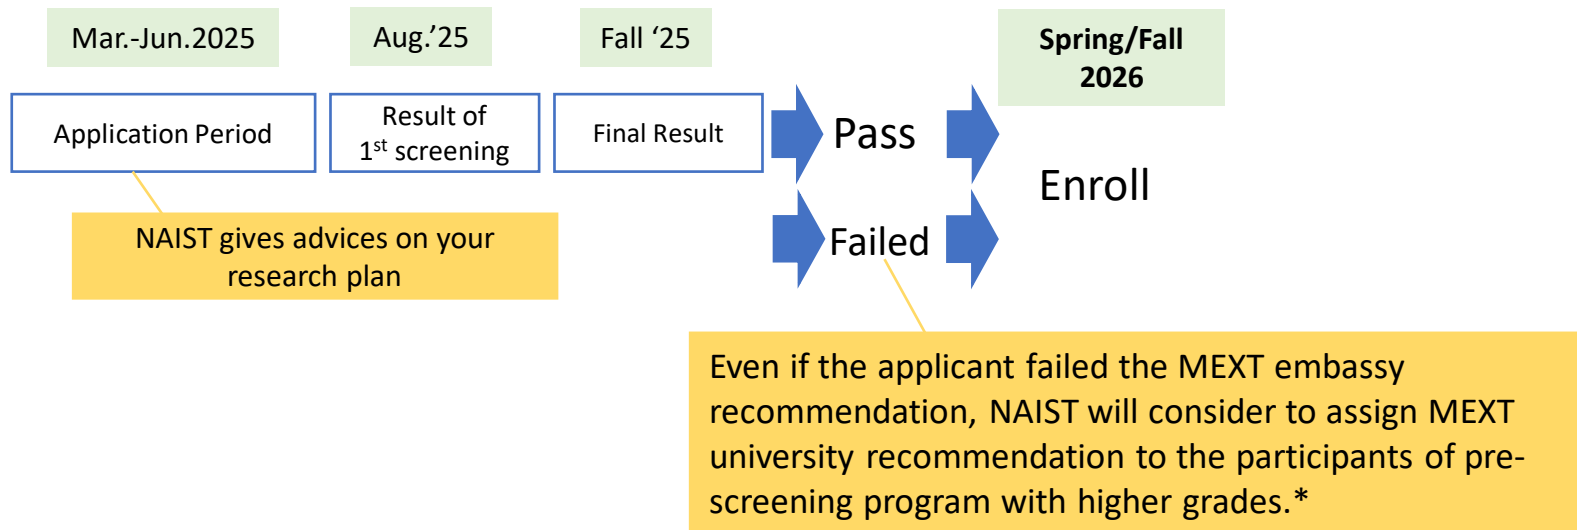

8 participants will be invited to Onsite internship program with travel fee support. Others will be permitted to contact with NAIST professors individually and find the best matching of the research and Laboratory. Both at onsite and online Laboratory visit, participants will be interviewed and evaluated for doctoral program at NAIST.

**MEXT Scholarship(university recommendation) and other scholarship candidates will be selected among participants of this program.**

Nara Institute of Science and Technology, Japan

All participants are suggested to apply for the **MEXT Japanese Embassy Recommendation** from their home country. NAIST faculty will assist you in writing your **“Research Plan”** which is the most important part of your application.

## <MEXT Embassy Recommendation>

\*The proof of your application for the MEXT Embassy Recommendation, such as a receipt email, result announce letter or email from embassy, will be required.
